

Aim:

Write a program to demonstrate constructor class

Source Code:**Student.java**

```
class Student{
    int num;
    String name;
    void display(){
        System.out.println(num+" "+name);
    }
public static void main(String args[]){
    Student s1=new Student();
    Student s2=new Student();
    s1.display();
    s2.display();
}
}
```

Execution Results - All test cases have succeeded!

Test Case - 1
User Output
0 null
0 null
