Aim:

Write a program to copy last n characters from file-1 to file-2.

• open a new file "(TestDataFile1.txt)" in write mode

Exp. Name: Write a C program to Copy last n characters from one File to another

- write the content onto the file
- · close the file
- open an existing file "TestDataFile1.txt" in read mode
- open a new file "TestDataFile2.txt" in write mode
- · read the number of characters to copy
- set the cursor position by using fseek()
- · copy the content from existing file to new file
- · close the files
- open the copied file "TestDataFile2.txt" in read mode
- read the text from file and print on the screen
- · close the file

Source Code:

```
Copy.c
```

```
#include <stdio.h>
void main()
   FILE *fp, *fp1, *fp2;
   int num, length;
   char ch;
   fp = fopen("TestDataFile1.txt", "w");
   printf("Enter the text with @ at end : ");
   while ((ch = getchar()) != '@')
   {
      putc(ch, fp);
   }
   putc(ch, fp);
   fclose(fp);
   fp1 = fopen("TestDataFile1.txt", "r");
   fp2 = fopen("TestDataFile2.txt", "w");
   printf("Enter number of characters to copy : ");
   scanf("%d", &num);
   fseek(fp1, 0L, SEEK END);
   length = ftell(fp1);
   fseek(fp1, (length - num - 1), SEEK SET);
   while ((ch = getc(fp1)) != '@')
      putc(ch, fp2);
   }
   putc(ch, fp2);
   fclose(fp1);
   fclose(fp2);
   fp2 = fopen("TestDataFile2.txt", "r");
   printf("Copied text is : ");
   while ((ch = getc(fp2)) != '@')
      putchar(ch);
```

```
}
   printf("\n");
   fclose(fp2);
}
```

Execution Results - All test cases have succeeded!

Test Case - 1
User Output
Enter the text with @ at end : We should not give up
and we should not allow the problem to defeat us@
Enter number of characters to copy : 15
Copied text is : em to defeat us

Test Case - 2
User Output
Enter the text with @ at end : You have to dream
before
Your dreams can come true@
Enter number of characters to copy : 20
Copied text is : dreams can come true
